We know that successful sales are one of the most important objectives of every market expansion and often the core starting point. Based on this knowledge, and because we are dedicated to the achievement of your sales success on the German market, we have developed a **sales method** that is based on pure pragmatism and the consequent striving for success (see left side).

Based on this method we have conducted many projects on the German market and have thereby helped a lot of companies to achieve the desired results.

This self-learning sales cycle is developed to **grow and enlarge your sales**, after a first / initial sales package(s). The first package is usually a fixed number of tagerts that we contact. Hereinafter all results are analyzed; leads and knowledge extracted (see 2nd page).

Once this is established, we offer to continue your sales representation in Germany. This secures both **ongoing optimization** and steady generation of leads and clients in Germany.

The details of the sales methodology is explained in a personal meeting and of course adjusted to individual needs of your project.

## Reporting

We use the Excel spreadsheet with the researched candidates as a reporting tool and implement all relevant information gained through the contacting process and also use this to record client comments and specific requirements.
